A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-2, 6, 8-12 are rejected under 35 U.S.C. 102(b) as being anticipated by USING AUTOCAD release 10 with 3-D.

3. As per claims 1, 2, 11-12, USING AUTOCAD discloses a solid editing method in a three-dimensional CAD system (chapter 16), having a display screen and an operation unit for operating basic configurations displayed on said display screen, for completing a final three-dimensional configuration by an operation of combining a plurality of basic configurations, said method comprising: a step of displaying, on said display screen, in-the-making configurations from a first basic configuration as a start configuration down to the final three-dimensional configuration (chapter 19); a selecting step of selecting one of the in-the-making configurations displayed (chapter 6 pages 6-6 to 6-8); and a step of setting as an edit target the basic configuration finally combined with respect to the selected in-the-making configuration (chapter 6 pages 6-6 to 6-8).

4. As per claim 6, USING AUTOCAD discloses wherein said program further comprises a step of deleting the edit target basic configuration from the combination of the basic configuration forming the final three-dimensional configuration (Chapter 6 pages 6-6 to 6-8).

5. As per claim 8, USING AUTOCAD discloses wherein said selecting step involves a step of selecting the first in-the-making configuration and the second in-the-making configuration, and the program further comprises a step of reproducing the basic configuration set as the edit target due to the first in-the-making configuration, to the second in-the-making configuration (chapter 6 pages 6-6 to 6-8).

6. As per claim 9, USING AUTOCAD discloses wherein said program further comprises a step of changing the edit target configuration (chapter 6 pages 6-6 to 6-8).
